Cherie Carl discussed the new Web Page for the Public Library. She stated that we need to have a good Web presence. The Public Library Web Page could be done by using "Plinkit" that was brought up by Kim. The College is also launching its new Web in the fall. Cherie Carl stated that the RCPL needs its own identity and the Plinkit hosting was a free service. It is a formatted program where we would let them know what we wanted on the Web Page and they would do the data entering. Cherie Carl also stated that Library of Va. uses this web program and RCPL is in line to get this service.

It was also brought up that the RCPL is NOT listed in the yellow pages.
